# Make an interactive chat bot in 5 minutes!

1. Click on the cat and add these commands:

2. Try out the program by pressing space. Notice how it just says the same thing every time?

3. Change the cat's script to look like this. Press space to try it out, and enter your name.

4. Use an 'if' command so that the sprite can reply differently depending on the answer.

5. What does this script do?

6. Use what you've learnt to make an interactive chat bot!
